Health questions

These questions are the studio's own policy. They help your artist plan a safe appointment. They aren't medical advice: if you have a question about your health or your medicines, ask your doctor.

Are you pregnant or nursing?

☐ Yes ☐ No

Have you taken isotretinoin (Accutane or a similar acne medicine) in the last 12 months?

☐ Yes ☐ No

When did you stop?

Do you take blood thinners, or aspirin, ibuprofen or fish oil regularly?

☐ Yes ☐ No

Which ones?

Do you have a bleeding or clotting disorder?

☐ Yes ☐ No

Which one?

Do you have diabetes?

☐ Yes ☐ No

Do you have a condition or take a medicine that slows healing or affects your immune system?

☐ Yes ☐ No

Tell us a little more.

Do you scar easily or form raised scars (keloids)?

☐ Yes ☐ No

Do you have a skin condition on or near the area, such as eczema, psoriasis, rosacea or dermatitis?

☐ Yes ☐ No

Which one?

Are you allergic to numbing creams (such as lidocaine), latex, metals like nickel, pigments or hair dye?

☐ Yes ☐ No

Which ones, and what happened?

Have you used retinol, retinoids or exfoliating acids on the area in the last 2 weeks?

☐ Yes ☐ No

Have you had neuromodulator injections (like Botox) or fillers in or near the area in the last 4 weeks?

☐ Yes ☐ No

Is the area sunburned, or have you tanned it in the last 2 weeks?

☐ Yes ☐ No

Have you had alcohol in the last 24 hours?

☐ Yes ☐ No

Have you had removal sessions on this area before (saline, laser or another method)?

☐ Yes ☐ No

How many, what kind, and when was the last one?

Has it been at least 6 weeks since the area was last tattooed or treated?

☐ Yes ☐ No

Anything else your artist should know about your health?

What you agree to

Several sessions

Saline removal lightens pigment over several sessions. How many I need depends on the pigment, how deep it sits and how my skin heals. Some pigment may not lift fully, and the studio can't promise a result.

Initials _____

Time between sessions

Sessions are spaced 6 to 8 weeks apart so the skin can heal. The studio sets the spacing.

Initials _____

Healing

The area scabs while it heals, and the scabs must fall off on their own. Removal can leave a mark, a lighter or darker patch, or a change in skin texture.

Initials _____

Risks

Any tattoo carries some risk of infection, allergic reaction, swelling or bruising. Following the care steps lowers the risk. I'll contact the studio about anything unusual, and my doctor about a medical concern.

Initials _____

My answers

I answered the health questions truthfully. I'll tell my artist before the appointment if anything changes.

Initials _____

Alcohol and drugs

I'm not under the influence of alcohol or drugs.

Photos of your results

Deposit policy

Your deposit holds your appointment and comes off your final price. Moving your appointment needs at least 48 hours' notice. A missed appointment without notice keeps the deposit.

Initials _____

the studio uses your health answers only to do your appointment safely and to keep the records the law requires. They are never used for marketing or sold. They are stored encrypted, and every time someone at the studio opens them it is logged.

Your signature _____ **Date** _____
